EXPERIENCE

1. Prudent (Jr. Web Developer) (Oct 2024 - Present)

- **Developed and maintained** full-stack features and resolve bugs for **FundzBazar**, a production app serving **1.8+ million users**, implementing comprehensive insurance modules that increased user engagement by 10%.
- **Architected 16+ custom reports** with advanced filtering capabilities for **PrudentPBD** (MVC) & **Admin** (Desktop App), improving operational efficiency for **1000+ employees** and reducing manual data processing time by **60%**.
- **Optimized database performance** by implementing efficient stored procedures and query optimization, resulting **50%** faster **page load** and 30% reduction in server response time.
- **Collaborated in agile sprints** using ASP.NET Core, Angular, MVC and SSMS, delivering 20+ features on schedule while maintaining **95% code review approval rate.**

2. CIVICA (Jr. Software Engineer) (Feb 2024 - Oct 2024)

- **Design and developed web app** using ASP.NET Core, MVC, Angular and Azure. Built 15+ Restful APIs in .NET Core with comprehensive business logic and data access layers.
- **Utilized Entity Framework** Core for both **DB-First** and **Code-First** approaches, manage 20+ DB migrations.
- **Implemented testing** suite using **xUnit** for backend and **Jasmin/Karma** for frontend, achieving **90% code coverage** and reducing regression bugs by **65%**.

SKILLS

Languages & Frameworks:

- C#, .NET Core, ASP.NET Core Web APIs, MVC, Angular, TypeScript, Bootstrap, OOPS, Swagger.

Cloud & DevOps:

- Microsoft Azure, Azure services, CI/CD pipelines, Cloud Deployment, Azure DB.

Toos & Testing:

- Git & GitHub, Azure DevOps, SSMS, Postman, Unit Testing (xUnit & Karma)

CERTIFICATION

- **TCS Campus Ambassador** Certification for promoted tcs events , programs & info to college students.
- **Scored 70%** in **NPTEL** course - Introduction to Industry 4.0 And Industrial Internet of Things.

EDUCATION

B.Tech in Information Technology (2020-2024)
7.32/10 CGPA
- Birla Vishvakarma Mahavidyalaya - Anand

PROJECTS

1. EduVerse 🐙 Live (2025)

- **Established enterprise-grade educational platform** with 3-layered architecture serving students with course enrollment, write review and video request features.
- Use **Entity Framework Core 8** with Database-first approach, dependency injection & Built futuristic UI with **Angular 18** standalone components and bootstrap, improving code maintainability by **70%**.
- **Deployed full-stack app** on Azure with **CI/CD** pipelines, **Application Insights** monitoring, achieving 99.9% uptime.
- Implemented **Azure AD B2C** authentication with role-based access control using **Azure Function**, achieving 100% secure user authentication. Integrated **Azure Blob Storage** for image management.
- **Tech**: ASP.NET Core 8, Angular 18, Azure services, Azure Cloud, Azure DevOps, SSMS

2. PhoneBook 🐙 (2024)

- **Developed extensive contact management** app handling 500+ contacts with advance search capabilities, reducing lookup time by **60%**, implement secure authentication system using **JWT tokens**, achieving 100% secure data access.
- **Created responsive UI** with Angular 16 featuring contact favourite, sort and pagination with **sub-2 sec load time**.
- Designed **optimized database** schema with custom store procedures, Achieved **90%** code coverage through unittest.
- **Tech**: ASP.NET Core 6, Angular 16, MVC, UnitTesting, JWT, SSMS
