PROFESSIONAL SUMMARY

- **Result driven Full-stack developer** with 2+ years of experience working on enterprise-level applications using **.NET Core, Angular, Azure**, SQL, Postgresql, CI/CD pipelines & Agile Methodology with a focus on **microservices** architecture, performance optimization and **cloud infrastructure**. Contributing to projects that emphasize clean code, collaborative development, and robust deployment processes that driven **Business Growth.**
- **Open To Work Locations:** Remote, Bengaluru, Hyderabad, Pune, Gurugram and Other IT Hubs

EXPERIENCE

1. Software Engineer / MagnusMinds IT Solution   **December 2025 - Present / Ahmedabad, India**

- **Developed full-stack enterprise applications** using **.NET Core** backend services and **Angular** frontend, managing SQL Server (SSMS) and PostgreSQL databases, writing **unit test** cases to ensure code quality and reliability while following clean code standards and best practices across the technology stack.
- **Collaborated** in **Agile/SCRUM environment** with sprints, successfully resolved **Jira** tickets through daily standups, **client calls**, and **sprint planning** with focus on dependency resolution and priority-based execution.
- **Contributed pull requests** with comprehensive documentation, participating in **peer code reviews** with approval requirements and operating **CI/CD pipelines** through GitHub Actions and GitDevOps for successful **deployments** with Docker containerization across **Dev** and **QA** environments.
- **Test and validate** APIs using **Postman**, monitoring cloud infrastructure through **Azure** Portal (servers, databases, network configurations) and collaborating with QA team to ensure system reliability and optimal performance.
- Continuously expanding technical expertise in modern practices including **.NET Aspire**, **gRPC** and **microservices** architecture, demonstrating strong professional communication skills and eagerness to learn and adopt emerging technologies.

2. Junior Web Developer / Prudent Corporate Adv. Services Ltd.   **October 2024 – December 2025 / Ahmedabad, India**

- **Developed and maintained** full-stack features and resolved bugs for **FundzBazar**, a production app serving **2+ million users**, implementing comprehensive insurance modules that increased user engagement by 10%.
- **Architected 16+ custom reports** with advanced filtering capabilities for **PrudentPBD** (MVC) & **Admin** (Desktop App), improving operational efficiency for **1000+ employees** and reducing manual data processing time by **60%**.
- **Optimized database performance** by implementing efficient stored procedures and query optimization techniques, resulting **50%** faster **page load time** and 30% reduction in server response time.
- **Collaborated in Agile sprints** using ASP.NET Core, Angular, MVC and SQL, delivering 20+ features on schedule while maintaining **95% code review approval rate.**

3. Junior Software Engineer / Civica Resource Pvt. Ltd.   **January 2024 - October 2024 / Vadodara, India**

- **Designed and developed web apps** using ASP.NET Core, MVC, Angular, SQL and Azure. Built 15+ REST APIs in .NET Core with comprehensive business logic and data access layers.
- **Utilized Entity Framework** Core for both **Database-First** and **Code-First** approaches, managed 20+ DB migrations.
- **Implemented testing** suite using **xUnit** for backend and **Jasmine/Karma** for frontend, achieving **90% plus code coverage** and reducing regression bugs by **65%**.

PROJECTS

1. FundzBazar Live   **2025**

- Contributed to **FundzBazar**, a digital investment & wealth management platform with **2M+ users**, offering mutual funds, equities, bonds, FDs, and insurance products.
- **Developed** and **maintained** the **Insurance Module** include Term Life & Investment Insurance plans for ICICI (Smart Life/Life Plus & Platinum), enabling seamless digital product availability for customers and advisors.
- **Worked** on a full-stack, **end-to-end digital insurance workflow** (Quotation, Add On, Proposer, Medical History, Nominee, Address, KYC, Docs Upload, Declaration), reducing manual intervention by **35%**.
- **Integrated** quotation sharing via WhatsApp (**Kaleyra** API) & Email (**SendGrid**) with PDF downloads across Health, Car, Two-Wheeler, Travel, Term Life & Investment Insurance, enabling both single & multi-plan distribution. Improved development efficiency by **40%** through **reusable** UI components & backend services.
- **Technologies:** C#, ASP.NET Core, Angular, SQL Server, GitHub, Postman

2. **EduVerse** <u>Live</u>   **2025**

- **Established enterprise-grade educational platform** with 3-layered architecture serving students with course enrollment, review system, video request features and course management.
- Use **Entity Framework Core 8** with Database-first approach, dependency injection & Built modern UI with **Angular 18** standalone components and bootstrap, improving code maintainability by **70%**.
- **Deployed full-stack app** on Microsoft Azure Portal with **CI/CD** pipelines, **Application Insights** monitoring, achieving 99.9% uptime.
- **Integrated Azure AD B2C** authentication with role-based access control using **Azure Function**, achieving 100% secure user authentication. Implemented **Azure Blob Storage** for efficient image management.
- **Technologies:** ASP.NET Core 8, Angular 18, Azure services, Azure DevOps, SQL Server

SKILLS

Languages: C#, TypeScript, JavaScript, SQL

Framework: .NET Core, ASP.NET Core, Entity Framework Core, Angular, MVC, Bootstrap, OOPs, Swagger

Cloud & DevOps: Microsoft Azure, Azure services, CI/CD pipelines, Azure DB, Azure DevOps, App Insights, Key Vault

Tools & Testing: Git & GitHub, Jira, SQL Server Management Studio, Postman, Unit Testing (xUnit & Karma)

EDUCATION

Bachelor of Technology - Information Technology   **July 2020 - May 2024 / Anand, India**

- Birla Vishvakarma Mahavidyalaya
- **Course Work:** OOPs, RDBMS, Data Structure, Operating Systems, Web Technologies
